

WHY REVIEW THE CURRENT ZONING CODE?

The current Town of Palm Beach's zoning code is nearly five decades old and has never been comprehensively updated — the Town has been addressing issues one-by-one with amendments and variances.

This project will lead to the development of a new code that meets the town where it is today and is clear, efficient, consistent, user-friendly and graphically-rich.

Enlightening & relevant information

WHAT IS ZONING?

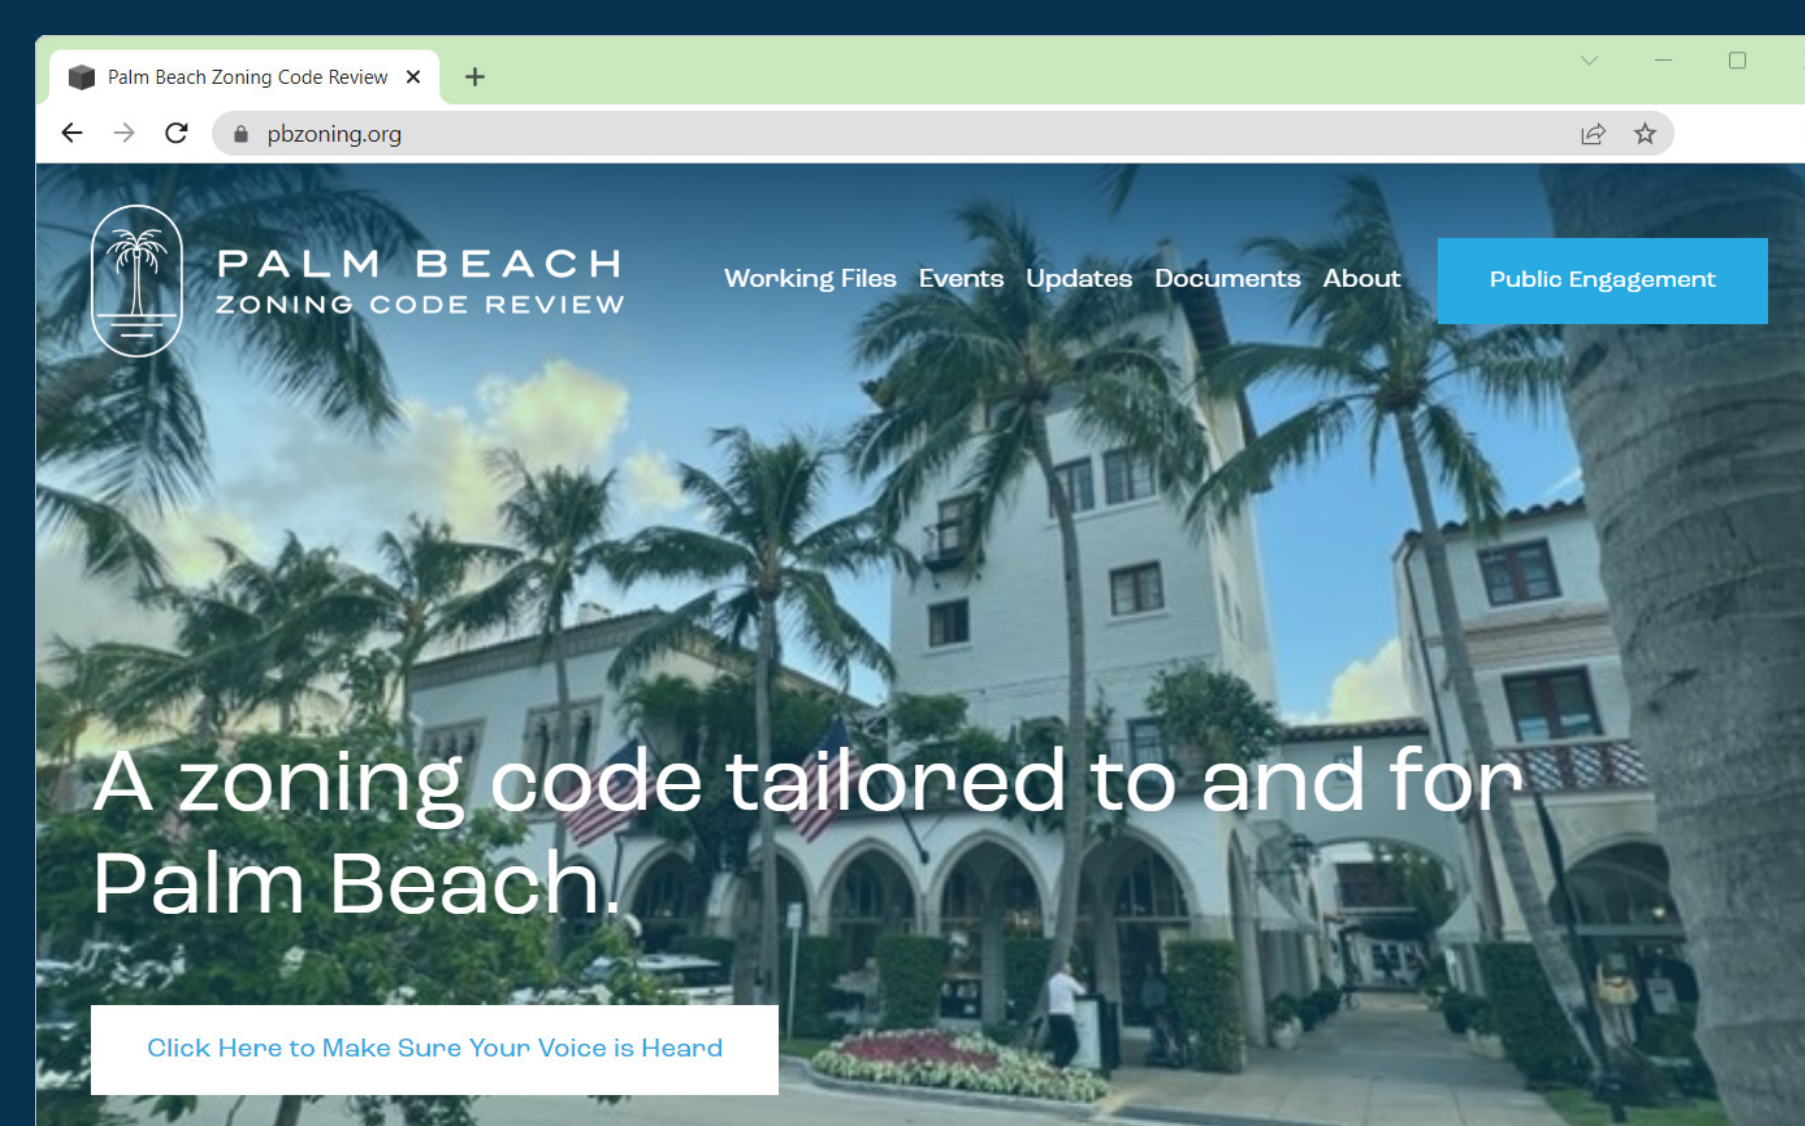

A zoning code regulates land use in a community by defining what can be built, where it can be built, the use of the property, the shape of buildings and their relationship to the property and surrounding properties.

WHAT ISN'T ZONING?

- » A building code regulation
- » A permission for a company or person to operate a business
- » A permission to commence with construction
- » A market catalyst
